

**THE JOLLY WILLIAMS PARTNERSHIP**  
SOLICITORS & ADVOCATES

**A TESTIMONIAL TO PRODIGY PC LTD**

At The Jolly Williams Partnership, we strive to deliver an excellent service to all of our clients, whatever their needs.

To help us do this, we use the latest in cutting edge technology, provided by Aden Ottewill and his team at Prodigy PC.

This is just a small way though in which Aden's company supports our firm.

What we rely on most from Prodigy PC, is their ongoing support which is second to none.

Prodigy PC took over care of our I.T. needs in October last year. Rather than tweak what we already had, which would have been sufficient, they rebuilt our entire I.T. network system from scratch, just so that Aden could be satisfied that it was as good as he could possibly make it.

Furthermore, they did this over a weekend so that there was no disruption to the service provided to our clients by ourselves.

They now look after all of our daily I.T. needs. Only yesterday, Nick was with us in the morning updating the server and dealing with any queries arising from our staff. We did not prompt this, Aden did.

We no longer have to worry about our server going down and work coming to a halt. This has not happened since Prodigy PC took over. Even if it did, we know that Aden or one of his staff would have it up and running again very quickly.

Without wishing to embarrass Aden, he is a perfectionist and this shows in the way Prodigy PC deal with things.

In my opinion, it is no surprise that Aden has been able to grow his business to the extent that he has in recent times. It is proof that if you concentrate on service, success follows.

I would recommend Aden & Prodigy PC to anyone and everyone.
