Dear Aden,

Being contactable on the move is vital for Shire Business as I am frequently away from base. Aden Ottewill has been a key part of my business success in setting up mobile devices to ensure I am always in contact where ever I am which is not always in the UK.

You have worked tirelessly with my Internet Service Provider and also with my mobile phone company to set things up properly. This is not an easy task and requires persistence as well as technical expertise. I am very grateful to you and have recommended you to my clients. Prodigy PC are an excellent outsourced IT department for any growing business.

Yours sincerely

Kate Dodson
